

Hello Mustangers,

The Rocky Mountain Mustang Roundup committee is actively keeping up with recent news events in regards to COVID-19. We have received some inquiries regarding the 2020 RMMR event taking place in Steamboat Springs June 17th – 21st. Since conditions are changing rapidly, and the event is still 3 months out... as of now the event WILL go on as scheduled.

There are currently no orders from the City of Steamboat Springs, or from the Governor of Colorado that would mandate us to cancel the 2020 event. While much of what is going on is out of our control, and many of our other daily activities have been restricted and/or cancelled... we hope you will continue to support the 2020 RMMR as this might be the 1st Mustang event that we will all be able to enjoy in Colorado this year!

Please understand that if there is any concern for health and safety of the public from local authorities, the state, or our own staff then we will cancel this year's event. However, as earlier stated we are optimistic that conditions will improve, and that everyone will want to get out and attend the 2020 RMMR. Follow us on Facebook for any changes or updates.

Thank you for your patience and understanding,
Your 2020 Rocky Mountain Mustang Roundup Committee
