

Welcome, 33rd Annual Rocky Mountain Mustang Roundup!

Fellow Roundup Participants:

Welcome to the 2021 Rocky Mountain Mustang Roundup as we celebrate the past, and the present, of this iconic car. From its storied roots as a product of Lee Iacocca and his team in the early and mid-sixties to the latest rendition, up to and including the latest Shelby GT500, this car has touched the very fabric of car enthusiasts across the globe. The transformations over the years have been incredible.

As RMMR celebrates its 33rd anniversary, the committee is proud to present this venue where owners, and fans alike, can congregate to see and get different ideas, talk shop and maybe do a little bench racing. What could be better than our favorite cars set against the beautiful backdrop of Pikes Peak and at our new venue the town of Colorado Springs.

Judging for the event will be carried on in the same manner as we have done for several years, and tabulated using the process implemented ten years ago (as it just works). The judges are volunteers from our host town of Colorado Springs. Points are awarded, on a scale of 1 through 5, in half point increments, over five categories; overall appearance, engine, interior, exterior, and wheels/tires. Scores are tabulated and the cars are ranked according to point totals.

In closing, it is important to thank the many volunteers needed to put on one of the premier car show events in the country. Down to the smallest details, this could not happen without you. A special thanks goes to all the fans and participants, who make this all possible.
